OUR CHAIRMAN

There is a saying "opportunity comes to those who are prepared", but the level of preparation a person undergo should be appreciated from many. Vishwa Cariappa B.S. is the man with many dimensions, who has set an example of this statement. He is the Founder, Chairman and Managing Director of San Group of Companies where San International School is the proud partner of this group. He is also the director of Karnataka States Warehouse Corporation and Ex ZRUCC member of Indian Railways.

B S Vishwa Cariappa is a hard worker. Without the support of any Godfather, by his continuous efforts and honesty he grew up as a successful entrepreneur. He adopted the principle "work is worship". He has been successful in real estate, education, retail, media, entertainment and in many other fields.

The credit of success of San Group of Companies goes to Dr. B.S. Vishwa Cariappa. He is the man of Vision, firm dedication, and leadership quality. His companies have created a milestone in terms of employment by employing thousands of people and his social works have inspired hundreds of people. He strongly believes that everybody deserves to be educated, so he started San International School which is responsible for High Quality education for thousands of students.

DR. B.S. VISHWA CARIAPPA

BBA, MBA, PHD

LIBRARY

Library is a Treasure filled with the power house of knowledge. Every year latest books are added regularly to the existing collection and students are made to access all sort of books, so that they avail the benefits of it and perform better in exams.

LABORATORIES

Laboratories are developed in such a way that the students experiment the doubts raised in the classroom practically in the lab. This will enhance their skills and the ability to understand the given concept. We guide every student, individually to carry out the experiments and evaluate their results to help them on enhancing the subject knowledge.

COMPUTER LAB

Computer lab is well equipped with best available computer and the students are updated with the technology. The fundamental studies of scientific subjects are facilitated in our labs. Primary school students are skilled with the basic knowledge of computer science.
